## DETAILED ACTION

### *Specification*

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 64, 66, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 64, line 8, the phrase "each user of the system" lacks antecedent basis; a plurality of user is not positively recited prior to this line.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

As per claim 63, 86-87, Herrero Garcia et al. disclose a speech recognition interface for a telephony system comprising:

a speech recognition user interface for allowing a user to input speech commands ..., (see Fig. 1, item 700);

control means for controlling the telephony system in accordance with an input speech command, (see Fig. 1, items 700, 300 and col. 15, lines 36-39);

Wherein the speech recognition system is adapted to recognize continuously spoken commands ..., (see Fig. 1, items 700, 300 and col. 15, lines 36-39).

As per claims 64, 88, Herrero Garcia et al. disclose a speech recognition interface for a telephony system comprising:

a speech recognition user interface for allowing a user to input speech commands ..., (see Fig. 1, item 700);

execution means for controlling the telephony system in accordance with an input speech command, (see Fig. 1, items 700, 300 and col. 15, lines 36-39);

wherein each user of the system is identified by a telephone number and an associated identifier, ..., (see Fig. 1 and col. 9, lines 17-56).
